Sales	1996 actual	10 500 000 SEK (1, 2 M€)
	2006 actual	32 000 000 SEK (3, 5 M€)
	2009 projection	43.000.000 SEK (4, 6 M€)

History

Diskomat has for more than 50 years designed and manufactured advanced systems for dishwashing in commercial kitchens. Diskomat formed during 35 years a department within Lorentzen & Wettre (formed in 1916) and became an independent subsidiary in 1990. In May 1997 the company was acquired by Gösta Torssell, who continues to operate the company in its earlier form and with the same staff, whom over the years have accumulated a unique know how of dishwashing systems. To retain and develop this know how new staff has been added to form a basis for growth. Since Wexiödisk was formed 30 years ago, Wexiödisk and Diskomat have co-operated very closely to integrate Wexiödisk-dishwashers in these systems.

Diskomat/Nordien System has completed over 2.500 projects

- 360 Hospitals
- 25 Central kitchens
- 350 Schools
- 600 Staff restaurants
- 100 Military staff canteens
- 65 Flight caterers
- 1000 Hotels/Restaurants

Current development

- 1998 – Acquisition of Tray setting from Protema
- 1999 – Exclusive agreement for dishwashers with Wexiödisk for flight catering
- 1999 – Exclusive agreement for foam cleaning equipment with Lagafors
- 2000 – Agreement for waste handling equipment with Envac Scandinavia
- 1999 – 2002 SCE Seminars at IFCA
- 2003 – Exclusive agreement for food distribution equipment with Electro Calorique in France
- 2004 – Moved to new office and workshop
- 2004 – Exclusive distributor of Nordien System in Sweden and some Export markets
- 2006 – Entering the Food processing industry
- 2011 – Marketing the EWA (Echo Waste Away) system for waste handling

Employees

Our Marketing engineers as well as our Project engineers are all trained engineers and very knowledgeable in Dishwashing, Waste handling and Cleaning systems. Our Service- and assembly engineers have long experience of their work. The company consists of

- Managing Director
- 4 Senior Marketing/Sales engineers
- 3 Project leaders / Design engineers
- 4 Service and Assembly Engineers
- 2 Administrators

Technical resources

- Auto CAD 2010 and Inventor (3D)-system in a network with e-mail link.
- Stainless steel components are manufactured, to our design, by sub-suppliers.
- Diskomat has its own workshop where all systems are assembled and tested before they are shipped to the end user.
- Our own assembly engineers install our systems and commission them on site including training of local service staff and operators.

Diskomat as a company is focusing on four business areas when making dishwashing systems.

- In Flight Catering
- Staff Canteens/Food Courts/Schools
- Hospitals
- Hotels/Restaurants

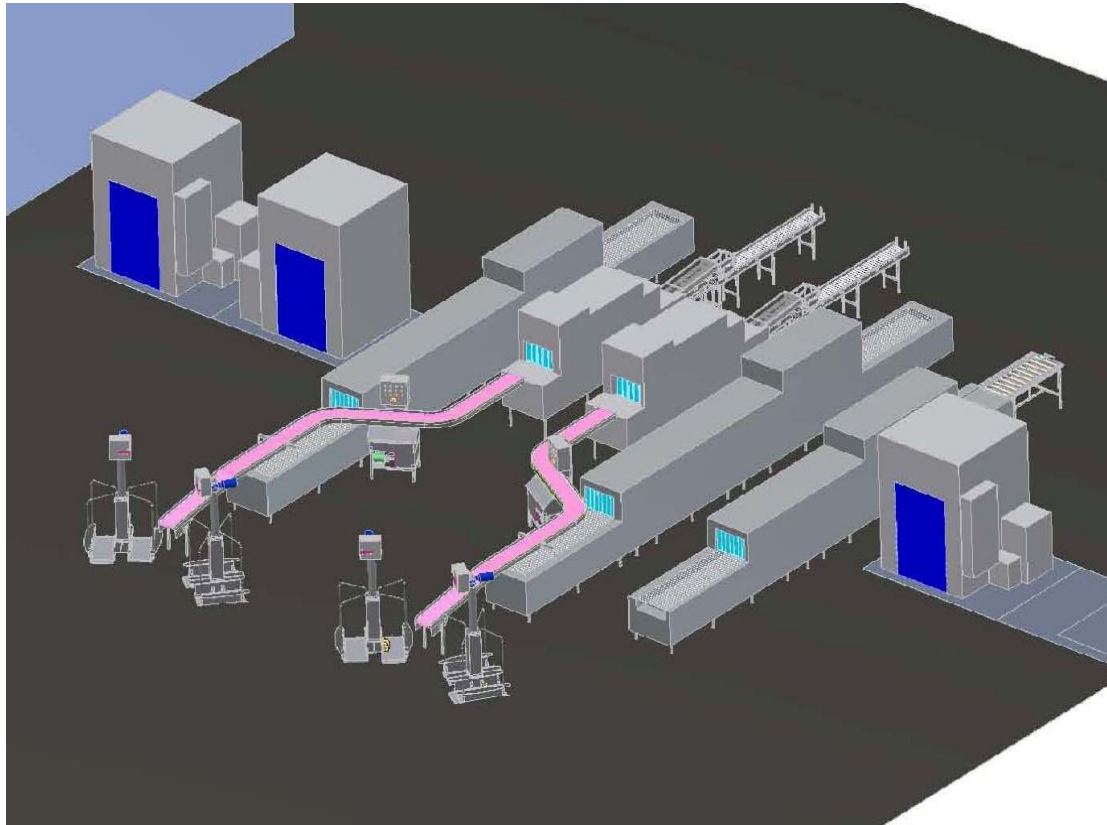

Each operation has its special needs a Flight Catering Unit is mostly used more or less 24 hours a day all year round compared to a school or staff canteen that is mostly used just once a day 5 days a week. Diskomat has during the 50 years in the industry developed both methods and products for each of the above mentioned areas. From fairly "simple" dishwashing areas were equipment such as stainless steel tabling is used to automated dishwashing areas where for instance conveyors, loaders, robots and other types of automated equipment is used.

All dishwashing areas from Diskomat have the following in common:

- **Hygiene**, the design and construction should make it possible for maintaining a high hygiene standard.
- **Ergonomics**, with ergonomic equipment the staff avoids injuries and can work more productive.
- **Energy savings**, this includes chemical, electricity (gas, steam) and water.
- **Product Life Cycle Cost**, with the high quality and the optimised use of the equipment the total cost for a Diskomat dishwashing area is taken down to low levels.
- **Low Staff Cost**, the dishwashing areas are planned to use a minimum of staff. This reduces the cost for staff to a minimum.

On the next pages we are showing four different references. Since each Dishwashing area is unique these are no "standard" in anyway. As mentioned above we plan/design according to needs and requirements from the operator.

In Flight Catering Unit

Name of unit	DHL Catering
Location	Heatrow Airport, London
Completed	2010
Current capacity	25 000 trays/day
Equipment	Tray conveyors with integrated cleaning , Cart Lifters, Multi Track Dishwashing Machines, Tray Dishwashing Machines with Tray Loaders, Glass Washing Machine and Cart Washing Machines. Dishwashing Area equipped with Foam cleaning equipment for easy and hygienic cleaning.

Staff Canteen

Name of unit	ABB Västerås
Location	Västerås, Sweden
Completed	2000 extended 2005
Current capacity	2000 guests/lunch
Equipment	System designed for guest sorting directly into Dishwashing Baskets. Basket conveyors with integrated Pre Rinsing Machine, Rack Conveyor Dishwashing Machine. 180° Turn Track, extended Drying Lines.

Hospital

Name of unit	Västerås general Hospital
Location	Västerås, Sweden
Completed	2008
Current capacity	27 000 meals/day, dishwashing in two shifts
Equipment	System designed with a high level of automation with features such as: Magnetic cutlery remover, automatic in feed of cutlery and trays into dishwashing machine, integrated food waste removal, automatic in feed of baskets into dishwashing machine, basket robot for that lifts the baskets directly from the flight type machine and sorts the washed dishwashing baskets, tray loader for stacking of washed trays.

Hotel restaurant

- Name of unit** Barr Al Jissah Resort & Spa
- Location** Muscat, Sultanate of Oman
- Completed** 2006
- Current capacity** 5 dishwashing areas serving 8 restaurants and banqueting.
- Equipment** Specially designed stainless steel tabling including delivery carousels, basin lines, 180° turn tracks, and drying lines.
